President's Message

Dr. Reza Iranmanesh
President

A Spring greeting from the entire West Coast team! I hope everyone had a great start in 2021.

A year ago, we were hit with a virus that impacted our life personally and professionally in every aspect. The Covid-19 pandemic forced us to close our offices, cancel our meetings, required us to take a different approach for office functions, and above all, kept us away from each other.

Good news is on the horizon. It appears there is a light shining through. The pandemic statistics are getting better and shows a relief. Treatment protocols indicate predictable results and now a vaccine is available. Authorities are promising a "BACK TO NORMAL" lifestyle, as early as July. These are all great signs of gaining control over this issue.

Your ADA, FDA, and WCDDA teams are working hard to make sure that you have a clear voice, and you are supported throughout this unprecedented time. The information that is researched and shared by the associations allows us to run our businesses with less interruptions and to be more successful.

At the WCDDA office, our team has worked exceptionally well despite the huge challenges they faced when planning our Annual Meeting. Social distancing in limited space became a real hurdle. They presented us with an innovative idea of a 'Meeting in a box'. It became more valuable than we thought so you may see this concept post-pandemic. Some of those meeting 'boxes' are still available for members. We continue to investigate fellowship growth and have hired a marketing firm to improve our approach to member benefits.

We had a highly productive virtual FDA House of Delegates Meeting in January, with exceptional representation of WCDDA members.

As you all know, advocacy is the most important priority of organized dentistry. FDA did a great job organizing the 25th anniversary of Dentists' Day on the Hill (DDOH). I would like to express my sincere appreciation for those of you that attended the DDOH virtual meeting.

Our annual presidential trip was an incredibly fun, successful ski trip that was filled with joyful activities. The location and weather could not have been any better. Over 50 members attended, and a wonderful time was enjoyed by all. Thanks to Lisette, Kelsey and a very special thank you to Dr. Paul Miller for the planning and preparation of the trip.

Our Executive Cabinet meeting will be in May, and we are looking forward to hearing from those interested in getting involved with the leadership. This is your association, so please get involved.

Our Summer Meeting is going to be held at The Ritz-Carlton, Naples. Registration is open, so if you have not yet signed up, please do so as you don't want to miss out and rooms are limited. We are all looking forward to this meeting!

The Florida Dental Convention (FDC) will take place, June 24-26 at the recently renovated, Gaylord Palms in Orlando! Act quickly because rooms are going fast! The Florida's Mission of Mercy (FLA-MOM) in Jacksonville is now scheduled for July 30-31 at the Prime Osborne Convention Center. I really admire Dr. Dan Gesek, FLA-MOM Local Chairman and his team as they work their way through planning the FLA-MOM event despite enormous challenges due to the pandemic. They were forced to reschedule and restructure this event two times already. Let's do our best to support them either by volunteering to be at the event or by providing donations to the Florida Dental Association Foundation.

It has been my honor serving WCDDA! I want to wish everyone a healthy and joyful Spring and hope to see you in Naples for the WCDDA Summer Meeting! 🍷

Reza Iranmanesh, DMD

 Sponsored in part by

Virtual Presentation by
 Christopher Bulnes, DMD and
 Jessica Stille-Mallah, DMD, MS

This course will analyze several factors that influence a dental benefit plan's reimbursement for dental services you provide. Topics to be covered include benefit plan limitations and exclusions; participating provider contracts; effective appeal of denied claims; and proper, accurate and consistent Current Dental Terminology (CDT) coding on patient records and claims. How to use guides on recent CDT Code additions.

Learning Objectives:

- Recognize how dental plan provisions affect reimbursement for services
- Implement ADA coding tools for accurate and error-free claim submissions
- Identify payer CDT Code misuse to appeal adjudication decisions

THIRD-PARTY PAYER CONCERNS:

Working closely with the various insurance plans, Medicaid managed-care plans, the Agency for Health Care Administration (AHCA), Department of Health, Board of Dentistry and other state and federal agencies, the FDA Director of Third-Party Payer and Professional Affairs addresses issues relating to third-party payers such as: Insurance and Medicaid managed-care plan reimbursement, contracting with commercial insurance and Medicaid managed-care plans, filing complaints with the Office of Insurance Regulation and/or the AHCA, general third-party payer questions, and regulatory issues with the Board of Dentistry. For additional information, contact Casey Stoutamire, Director of Third-Party Payer & Professional Affairs at (800) 877-9922 or cstoutamire@floridadental.org.

YOU OFTEN CAN AVOID COSTLY LEGAL FEES and malpractice suits by using this free service available only to members. Peer Review doesn't always have to be started by a disgruntled patient. A frustrated dentist who feels that everything has been done to satisfy the patient, with no success, also can recommend Peer Review. This is a service provided by colleagues to other members to help mediate problems, and most of the time avoid costly and emotionally draining litigation or Board of Dentistry complaints.

MANAGED-CARE HANDBOOK

You Want Me to Sign What? A Florida Dentist's Handbook on Managed-care Contracts is a comprehensive reference including information on reimbursement, risk, negotiating, and rights and duties of both parties. Contact the WCDDA office to obtain your copy, (813) 654-2500.

FDAPAC AND ADPAC

Dentistry's state and federal political action committees ensure the association has a place at the table when lawmakers are debating legislation that affects dentistry. The FDA Political Action Committee (FDAPAC) Board of Directors and American Dental Political Action Committee (ADPAC) work hard to identify and support dental-friendly candidates. To stay informed, visit ada.org/advocacy.aspx and <https://www.floridadental.org/>.

FLUORIDATION

The FDA is a leading advocate for fluoridation and many times must act fast when the removal of fluoride is threatened. As Florida's advocate for oral health, the FDA helps educate community leaders on the benefits of fluoridation and provides expert testimony before commission meetings, when needed. The FDA works with state agencies and the ADA to promote fluoridation. To increase education efforts and promote fluoridation, the FDA created a fluoridation specific website, floridafluoridation.org

Virtual Dentists' Day on the Hill

The Florida Dental Association (FDA) celebrated 25 years of advocacy by hosting a virtual Dentists' Day on the Hill (DDOH) on Tuesday, March 16th. Participants of DDOH got a firsthand account of meetings with legislators, grassroots panel discussion on advocacy, and special presentations and reflections from past FDA presidents and cabinet members. Because of the restrictions at the Capitol due to COVID-19, DDOH could not be held in-person; however, the FDA wanted to make sure members had the opportunity to engage in the process this session to help get support for the FDA's legislative priorities. To view the full day of the virtual DDOH, visit, <https://vimeo.com/floridadental/2021-dentists-day-on-the-hill>. To view a list of up-to-date Legislative Issues and the FDA's position on the legislative issues, visit <https://www.floridadental.org/advocacy/legislative-action-center/position-on-issues>.

Legislative Text Alerts

Sign-Up for Legislative Text Alerts

The FDA has a text alert system to ensure FDA members have the most up-to-date information to act on legislative alerts. To enroll, text "FDA" to 50457 and you will receive a text back to confirm your enrollment. You will only receive a text message when asked to act upon a certain legislative issue. Action alerts can include asking your legislator to co-sponsor a bill, support/oppose certain legislation or thanking them for their vote on a bill. Please note, this is an opt-in system. You will not be texted unless you take the above steps to opt into the program. For more information, or if you have any questions, please contact the FDA's Governmental Affairs Office at (850) 224-1089.

REPEAL OF ANTITRUST EXEMPTION FOR HEALTH CARE INSURANCE A WIN FOR DENTISTS

The Competitive Health Insurance Reform Act of 2020 became law on Jan. 13. The American Dental Association (ADA) led a multiyear effort to persuade Congress that health care insurance, including dental plans, should no longer be protected from some of the federal antitrust laws.

This new law is aimed at improving transparency and competition in the health, dental and vision insurance marketplaces. It makes the conduct of health insurers fully subject to the nation's antitrust laws, just like that of all other U.S. businesses. By removing the exemption obstacles to investigation and enforcement, both the Federal Trade Commission and the Department of Justice may be more likely to investigate possible anticompetitive practices and activities of health care insurers.

While there may not be immediate changes for dentists, in the long term it is expected there will be changes in the dental plan marketplace that will benefit all, including consumers of health care services and providers. In the past, many experts believed that the antitrust exemption suppressed the health insurance market dynamic. Now, there's hope that the new law will open opportunities for innovation and improved features that will expand choices for offering better and more coverage options.

The ADA has developed a list of FAQs for dentists at bit.ly/3a3Dq4G, which addresses how this law will impact dental practices. In addition, an *ADA News* article, which can be found at bit.ly/2Nf0STy, explains organized dentistry's advocacy efforts and what the new law means for providers, consumers and dental insurance companies. 🌞

COURSE DESCRIPTIONS

Friday, August 6th & Saturday, August 7th

Contemporary Preps, Digital Impression Dentistry, Fabrication Techniques and Materials

Dr. Michael Fling

8:00 a.m. – 11:30 a.m., 6 CEUs (Session 1 & 2 - 3 CEUs each)

Preparation design for full and partial coverage has changed with the advent of modern materials. Digital impression techniques are commonplace. Restoration fabrication techniques are numerous. There are a multitude of materials that can be used with today's treatment options. This presentation looks at all of these aspects including contemporary preps, impressions, fabrication techniques and materials, and reviews the following:

- Preparation design for full coverage and veneer restorations when restoring with contemporary materials
- Retraction and isolation techniques for pristine digital impressions
- Benefits of digital impressions dentistry
- How to articulate digitally generated impressions
- Restoration fabrication techniques with digital printing, milling and pressing
- Indications and material choices for contemporary restorations
- Is Zirconia a friend or foe?
- Material choices for cementation and bonding

Sunday, August 8th

HIV and Emerging Diseases Update for the Dental Practitioner – Mr. Tom Robertson

8:00 a.m. – 11:30 a.m., 3 CEUs

The presentation will discuss the latest trends in HIV treatment and the advances in HIV treatment and HIV testing. We will discuss the role of PREP in the prevention of HIV and the need for PREP expansion to include vulnerable communities as an integral part of lowering HIV transmission. The advances in HIV treatment including medications that reduce the viral load of a patient to an undetectable level. HIV disease trends as well as other emerging diseases will be a component of this update.

SPEAKER BIOGRAPHIES

Dr. Michael Fling is a dentist, an educator, an author and an artist. He says that the secret to his success is “bridging the gap between knowing and doing”. He uses this secret to further the success of those around him by inspiring them to excellence. He began his career in dentistry in 1976 as a laboratory technician. While maintaining a private practice with an emphasis on aesthetic and restorative dentistry, he has served as Course Director and as a Clinical Assistant Professor in the Department of Fixed Prosthodontics at the O.U. College of Dentistry. He now serves as an Associate Professor and the Director in the Department of Advanced Restorative Dentistry. He is the founder and President of Fling Seminars, delivering stimulating advanced dental education and motivation to dental teams and technicians around the world. He has been named by Dentistry Today as one of the “Top Clinicians in Continuing Education” every year since 2005. He serves at the L.D. Pankey Institute as a Essentials Director and is part of a select handful that has completed the process to earn the distinction as a “Pankey Scholar”. He also serves as a member of their Board of Advisors. He is a member of the American Academy of Restorative Dentistry. His passion is motivating change to improve the quality of life for those he touches.

Mr. Tom Robertson is a consultant, speaker and trainer. He has forty-two years in the Public Health field. Tom began his career working for the Center for Disease Control as a Public Health Advisor with duty assignments in Louisville, KY, Houston, TX, and Chicago, IL. He worked for the Florida Department of Health in the Office of STD Control and worked on the development of the Community Planning Initiative. His career path next led to a job with the Alabama Department of Health Division of HIV/AIDS Prevention. He has served in several capacities including Public Information Officer for PHA 6, co-chair of the Alabama Prevention Council, and trainer for the Alabama Department of Education. Tom has a MS in Personnel Counseling and a BS in Business Administration from Jacksonville State University. He has worked with multiple national organizations as a trainer and motivational speaker and has been named Educator of the Year in both Florida and Alabama. He continues to be involved in his community and looks forward to continuing to make a difference in the lives of his friends.

Participants are cautioned of the potential risk of using knowledge when incorporating techniques and procedures into your practice, especially when a course has not provided supervised clinical experience in the technique or procedure to ensure that you have attained competence.

The West Coast Dental Association and Program Committee make every effort to present high-caliber speakers in their respective areas of expertise. The speakers' presentations in no way imply endorsement of any product, technique or service presented during these presentations. WCDDA Earns a Gold Medal... Oh Wait That Was Me.

Hugh Wunderlich, DDS

Every year the President of the WCDDA has the privilege of proffering a recreational trip that is open to WCDDA membership. In the past we have sponsored many trips such as Napa Valley, Kentucky's Bourbon Trail, sailing the British Virgin Islands and cruising the Alaskan shoreline. Group vacations such as these are not for everyone but there are certain advantages to banding together with discounts and camaraderie that would not occur when traveling solo.

This year, Dr. Reza Iranmanesh, chose to take us to Utah and ski the Wasatch Range. We skied Park City Mountain, the Canyons and Deer Valley over three pristine days. Fortunately, the trip was ameliorated by our own ski-bum Dr. Paul "Bode" Miller. As if the skiing was not enough, he arranged for a sleigh ride dinner, bobsledding and snowmobiling. Yes, bobsledding! Oh, did I mention I won a gold medal in bobsledding? Hard to believe but we even wedged in some expert continuing education every day.

Out of nearly 2000 Dentists in the WCDDA, it does seem to always be a small group that takes advantage of these opportunities. Although on this trip we had 22 dentists and a total of 54 people participate. Thankfully, Kelsey, Lisette and Dr. Paul "Bode" Miller herded these 'snow'- cats into a manageable clowder. I heard of no broken bones and only one episode of a crash on the slopes hinting at hip surgery. Thank you Dr. Bulnes for being small enough to not to split my pelvis in the world's slowest 'yard sale' of collisions. The weather was a perfect blend of sunny and storybook snowfall. Snowmobiling punctuated the festivities with a string of 21 sleds in our group streaming into mountainous

canyons framed by aspens and evergreens.

Perfect. Except... oops... someone noticed back at basecamp that we were missing a "man." It turns out that 'Dr. Kay', riding solo, had buried her sled into a tree-well just as we were all zipping back to camp. Although unharmed it was a tense time for all until, she was located. The next WCDDA President's trip has yet to be determined. Please take advantage of it and all the benefits of membership the WCDDA provides. And we promise to not leave you behind.

We tip our pens to our creative Editor as this is his last address! Hugh has contributed much time and energy in his role throughout the years and for that we are grateful. Good luck with ALL your spare time Hugh and we will all standby to see what happens next.
